

06.03.2020

Dear all,

The spread of COVID-19 is greatly affecting daily life in many countries and also the International Masterclasses program. Here is our updated status:

**////////// COVID-19 //////////**

Due to the spread a number of institutes had to cancel their events. We monitor the situation and track all cancelled events. Please let us know of changes to your own situation and feel free to send us any inquiries.

**////////// Situation at CERN //////////**

Currently, CERN remains open and in operation. Large meetings have been restricted to Video-only, and for all other meetings remote participation is encouraged. We plan to continue the program, but have offered moderators to connect remotely if they don't want to come on site. This might affect the impression in the video conference and we hope for your understanding.

**////////// Daily schedule + your moderators //////////**

At <https://physicsmasterclasses.org/index.php?cat=schedule> you can check who will be your moderators. Please note: Due to the amount of suspended Masterclasses and cancellations, the institutes' schedule cannot be maintained and will be "frozen".

In the meantime, please take care and stay healthy!

Kind regards,  
Uta Bilow + Ken Cecire
